

BUSINESS REQUIREMENT DOCUMENT

Project name: School portal

Project manager: Arnaud PY

1.Executive summary:

Our tech company plan to create a school portal that is very clear, easy to use for the students and very practical for the professors and the administration.

2.Project objectives:

- help students to have their information easier so that the administration will have less mails to process.
- have less students that miss their course because they don't know where it is, whether it's on zoom or not (information clear).

3. Project scope:

We will make a portal containing a schedule, an access to the courses, an access to the information of the school and the student, the grades, and the absences.
